The built in microphone also records audio. The ultra wide angle lens covers 140 degrees. Waterproof, the Ultimate II Camera can withstand drops of up to 1 meter. Storage capacity is either 32G or 64G or 128GB. Continuous video recording up to 12 hours.

34 Megapixel Camera

Arriving at the scene of an accident or crime the Ultimate II camera enables the officer to quickly snap photo images even while the unit is recording video in both night vision and full color mode. The Ultimate II features a maximum 34 megapixel camera with an available burst shot option. With the built in 32 or 64 GB memory the recorder can store thousands of high quality images instantly.

Night Vision Recording

The Ultimate II Body Camera automatically turns on the infrared light when con-ditions require it. Large and powerful infrared light can reach up to 15 meters in pitch black darkness.

GPS

The optional GPS function indicates on playback the exact location of the camera, as well as the time and date.

WiFi

With support for optional built-in WiFi, the Ultimate II allows you to connect to a smart phone or remote. This app can turn your smart phone or tablet into a live video remote offering full control of all functions and settings.
